VOXXCLASSIC

Our classic insole is the product that brought VOXX HPT to the masses. Perfect for your "everyday shoe", these can be used while doing day-to-day activities as well as exercise. Classic insoles provide a medium level of cushioning that allow the wearer to comfortably perform a range of activities.

VOXXBLISS

Bliss insoles are the most cushioned insole that we offer. They are best for people that spend all day on their feet, or for seniors who would greatly benefit from the additional cushioning.

VOXXRUSH

Rush insoles are perfect for athletic shoes and aiding athletic performance. With the least amount of cushioning, they allow the user to get a good base to push off from when changing direction or making hard cuts.
